

## Extreme Light Infrastructure ERIC

### Graphic Designer (Freelancer)

#### Extreme Light Infrastructure (ELI)

The Extreme Light Infrastructure (ELI ERIC) is the world's largest and most advanced high-power laser research infrastructure. As an international user facility dedicated to multi-disciplinary science, ELI provides access to world-class high-power, high-repetition-rate laser systems and enables cutting-edge research, as well as breakthrough technological innovations. The ELI ERIC operates as a single multi-site organisation with two complementary facilities specialised in different fields of research with extreme light: ELI Beamlines in Dolní Břežany (Czech Republic) and ELI ALPS in Szeged (Hungary).

The ELI ERIC DG's Office is searching for a freelance Graphic Designer, who will work on developing the organization's visual identity in print, online and further relevant assets. The role is designed for an independent contractor who will work with us on a flexible schedule, typically on a per-project basis or as per agreed terms.

#### What will you do:

As a Graphic Designer, you will work on several projects and collaborate closely with the Communications team to produce visually engaging content that aligns with the ELI brand. We offer a flexible, project-based schedule that typically requires a few hours per week. An ideal candidate will have a strong design portfolio, excellent communication skills, and an eye for detail. Although most of your work will be remote, we would like to meet occasionally in the office.

#### The main activities of the role are:

- Design and produce high-quality print materials such as brochures, flyers, posters and reports.
- Create and edit digital visual assets for websites, digital advertisements, and presentations.
- Ensure brand consistency across all materials.
- Collaborate with the Communications team on creative campaign concepts.
- Develop infographics from organizational data or scientific content.
- Evolve the brand identity and work with external vendors to ensure correctness.
- Oversee multiple projects, meet deadlines while maintaining attention to detail.
- Stay up-to-date with design trends, tools, and technologies.

**We expect you to have:**

- 2-3 years of experience with a diverse portfolio (digital and print).
- Fluency in English.
- Proficiency in Adobe Creative Suite (Photoshop, Illustrator, InDesign) and MS365 (especially PowerPoint).
- Familiarity with Figma for UI design is preferred.
- Strong grasp of typography, color theory, and composition.
- Knowledge of pre-press processes and print production.
- Basic skills in video editing and animation.
- Creative thinking, strong attention to detail and problem-solving skills
- Knowledge of photography and photo editing would be a plus.
- Familiarity with Adobe After Effects and Premiere Pro for motion graphics and video editing, with the ability to create simple animations for social media would be a plus.

**We offer:**

- Contract-based work.
- A flexible, project-based schedule with pre-agreed hours, typically ranging from 10-20 hours per month, depending on project needs.
- A stimulating and diverse environment in a cutting-edge international research facility in Dolní Břežany, just outside Prague, with excellent public transport connections.
- A friendly workplace that makes a positive impact on society.
- Opportunities for professional growth and skill development.
- An attractive remuneration package.

*To apply, please send your CV and all relevant supporting documents to [kamila.orsagova@eli-laser.eu](mailto:kamila.orsagova@eli-laser.eu), highlighting your experience and motivation for the role.*
